PROFESSIONAL SUMMARY

Motivated Computer Science and Artificial Intelligence undergraduate seeking an AI Engineer Fresher role. Passionate about machine learning models, artificial intelligence solutions, computer vision, and data analysis. Looking forward to contribute to AI innovation while continuously learning advanced frameworks and industry best practices.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering (AI)	2023-2027
SRIMT Lucknow	CGPA: 8.15
Intermediate	2021-2022
RUNIC Bridgemanganj, Board: STATE BOARD	Percentage: 72%
High School	2019-2020
MGIC Bridgemanganj, Board: CBSE	Percentage: 75%

TECHNICAL SKILLS

- Programming Language: Python, Java
- Testing Methodology: Manual Testing, SDLC, STLC
- Databases: SQL, DBMS (Database Management System)
- Web Technologies: HTML, CSS
- Other Skills: Analytical Thinking, Problem Solving, Teamwork

LANGUAGES

- English
- Hindi

TRAINING & CERTIFICATIONS

Nexus Hackathon X DEVRhyme — Oct 2024

Active participant in technical workshops and coding challenges focusing on software development, full-stack workflow, and AI-driven solutions.

HANDS-ON PROJECTS

Student Management System

Performed comprehensive functional and UI testing of the web application. Designed and executed detailed test cases based on project requirements. Used SQL queries for backend and database validation. Identified, documented, and reported defects to ensure software quality.

Pro Fitness Tracker

Tested end-to-end application functionality, user workflows, and input fields. Verified error handling, input validation, and boundary value conditions. Performed rigorous regression testing after bug fixes to ensure system stability.

ACTIVITIES / INTERESTS

- Artificial Intelligence (AI) & Machine Learning
- Problem Solving & Analytical Thinking
